

# Aurofac<sup>®</sup> D

## Description

Aurofac<sup>®</sup> D is a medicated supplement for the prevention of diseases in pigs and calves caused by bacteria sensitive to chlortetracycline.

Aurofac<sup>®</sup> D can be added to the milk replacer for calves or in dry feed for calves and pigs.

## Composition

Each 1 kg contains:

CHLORTETRACYCLINE HYDROCHLORIDE

## Schedule

S4

## Withholding Period

- Cattle: 10 days
- Pigs: 7 days
- Dairy: Do not feed to cows which are producing or may produce milk that may be used or processed for human consumption.

## Storage

Store below 30°C (room temperature) in a dry place. Store away from direct sunlight.

## Expiry After Manufacture

24 months

## Pack Sizes

5 kg

## APVMA Approval

37617

## Directions

Aurofac<sup>®</sup> D is recommended for addition to liquid milk replacer or feed for calves. It may also be mixed with dry feed for pigs or calves.

### Pigs

Thoroughly mix 10 kg of Aurofac<sup>®</sup> D with each tonne of starter feed.

### Calves

Thoroughly mix 5g with each 500g of dry feed. For young calves on liquid feed, each 500g of dry milk replacer fortified with Aurofac-D can be made up by the addition of lukewarm water.

## Warning

Do not feed to pigs or calves greater than 12 weeks of age.

Do not feed to ruminants.

AUROFAC<sup>®</sup> is a Trademark of American Cyanamid Company
