

# BEC 2% Beef Feedlot + Monensin

## Description

BEC 2% Feedlot basemix is formulated to supplement the vitamin and mineral requirements of beef cattle in a feed lot environment. With a 20 kg per ton inclusion rate it provides ease of use for blending and ensuring an even distribution of nutrients in feed.

The basemix contains sufficient vitamins, trace minerals, salt and potassium for a balanced feedlot ration.

Monensin Sodium aids to prevent coccidiosis, improves the efficiency of feed conversion and aids to control bloat.

## Composition

Each 20 kg contains:

Vitamin A
Vitamin D3
Vitamin E
Vitamin B1
Cobalt (Co)
Copper (Cu)
Iron (Fe++)
Iodine (I)
Manganese (Mn)
Potassium (K)
Zinc (Zn)
Monensin Sodium

BEC 2% Feedlot basemix also contains an antioxidant to maintain nutrient composition.

## Pack Sizes

20 kg

## Directions

BEC 2% Feedlot is designed to be mixed with roughage, protein meal and crushed grain to produce a balanced feedlot ration.

Mix 20kg per ton of finished feed.

## Withholding Period

Nil

## Storage

Store below 30°C (room temperature) in a dry place.  
Store away from direct sunlight.

## Expiry After Manufacture

6 months

## Schedule

S6

## Warning

Dogs, horses and other equines should not be allowed access to feed containing monensin as ingestion of monensin may be fatal in these species.
