

# BEC Equine Millpack

## Description

BEC Equine Millpack is formulated for addition to performance and breeding horse feeds to aid in the prevention of deficiencies of vitamins and minerals.

With a high inclusion rate, BEC Equine Millpack helps to ensure even distribution of nutrients in feed rations promoting ease of use. It also contains Microvit A and D3 which utilises a unique coating technology to protect individual beadlets of vitamins from the abrasive and destabilising influences of a mineral and vitamin premix.

## Composition

Each 2kg contains:

Vitamin A

Vitamin D3

Vitamin E supra

Vitamin H (Biotin)

Vitamin K3

Vitamin B1

Vitamin B2

Vitamin B3

Vitamin B5

Vitamin B6

Vitamin B9

Vitamin B12

Cobalt (Co)

Copper (Cu)

Iron (Fe++)

Iodine (I)

Manganese (Mn)

Selenium (Se)

Zinc (Zn)

## Directions

Thoroughly mix 2 kg of BEC Equine Millpack to each 1 ton of mixed feed.

To ensure even dispersion it is recommended to first mix required premix with 4 kg of feed.

This blend should then be added to the mixer after the concentrates and before any high moisture products and then thoroughly mixed.

## Withholding Period

Nil

## Storage

Store below 30°C (room temperature) in a dry place.  
Store away from direct sunlight.

## Expiry After Manufacture

12 months

## Pack Sizes

20 kg

BEC Equine Millpack also contains antioxidant to maintain nutrient composition.
