

Carotene 11 - 12

Description

Carotene 11-12 is an egg yolk pigments specifically formulated for laying hens when an egg yolk colour score of 11-12 is required.

Composition

Each 1kg contains:

Xanthophyl

Carotene 11-12 also contains antioxidant to maintain nutrient composition.

Pack Sizes

20 kg

Directions

Thoroughly mix the recommended amount of Carotene 11-12 to each 1 ton of mixed feed.

Desired Yolk Colour Fan Score	Addition Rate/ton Feed
11	350 - 400 g
12	450 - 500 g

Addition rates are based on a hen feed intake of 110 g per day.

To ensure even dispersion it is recommended to first mix required premix with 4 kg of feed then mix this thoroughly into the rest of the feed.

Withholding Period

Nil

Storage

Store below 30°C (room temperature) in a dry place.
Store away from direct sunlight.

Expiry After Manufacture

12 months

Warning

Take caution when using Carotene 11-12 with other yolk pigments. The balance of red and yellow pigments in feed is important for yolk colour.
