

Solulyte for Pigs

Description

Solulyte for Pigs is a water soluble electrolyte mix designed to aid in treatment of dehydration and/or diarrhoea in pigs.

It contains essential minerals to prevent mineral deficiencies which may occur along with hydration. It has a raspberry flavouring which can mask unpleasant smells, to attract pigs to drink water.

Composition

Each 1 kg contains:

Potassium (K)

Sodium (Na)

Chloride (Cl)

Bicarbonate

Citrate

Solulyte for Pigs also contains an antioxidant to maintain nutrient composition.

APVMA Approval

38062

Directions

Add 1 kg of Solulyte for Pigs to 25 L of drinking water.

Use for 3-5 days at this dilution rate at weaning time or during other periods when dehydration may occur, then reduce to 0.5 kg per 25 L drinking water for 2-3 days.

Use clean drinking water and equipment, dissolve by stirring.

Withholding Period

Nil

Storage

Store below 30°C (room temperature) in a dry place. Store away from direct sunlight.

Expiry After Manufacture

12 months

Pack Sizes

18 kg
