

# Sow Buddy

## Description

Sow Buddy is formulated to supplement nutritional requirements of sows for support of health and condition during late gestation and early lactation. It contains an array of raw materials including prebiotics, fermentable and non-fermentable fibres, chromium and live beneficial bacteria.

Sow Buddy contains prebiotics useful for maintaining microbial balance in the gut, fermentable and non-fermentable fibres for reducing instances of constipation during late gestation and maintaining normal gut activity. Chromium plays a role in glucose metabolism during late gestation and probiotic BioPlus 2B as an aid in the establishment of gastrointestinal microflora of physiologically immature animals and the maintenance of performance of healthy animals.

## Composition

Chromium picolinate (Cr)

Xylo-Oligosaccharide

Maltodextrin

Fibosel

BioPlus 2B

Opticell C5

## Schedule

S6

## Pack Size

20 kg

## APVMA Approval

BioPlus 2B: 54694

## Directions

Thoroughly mix 250 g (or 2 scoops) per sow/per day into feed rations during late gestation and early lactation.

To ensure even dispersion it is recommended to first mix required premix with 4 kg of feed then mix this thoroughly into the rest of the feed.

## Withholding Period

Nil

## Storage

Store below 30°C (room temperature) in a dry place.  
Store away from direct sunlight.

## Expiry After Manufacture

6 months

## Warning

This product is scientifically formulated for the intended species of animal and should not be fed to any other animal. It may contain medication and ingredients that may prove harmful if fed to other species.
